

# Doing Business in Spain

Join us for a one hour briefing by U.S. Ambassador George L. Argyros, Sr. and Senior Commercial Officer Michael Liikala on "Doing Business with Spain."

There will also be a delegation of construction companies from Spain who will be traveling across the state to view our highway systems. If you have products related to this industry, you will be able to meet with these delegation members, as well.

Spain provides the U.S. with one of its largest export markets. Spain is one of the top ten economies in the world and the fastest growing major industrialized country. With access to other markets in the European Union, a highly productive, qualified workforce and modern networks of transportation and communications, Spain is an attractive place for U.S. companies to do business.

Leading sectors for U.S. exporters include aerospace & defense, agribusiness, apparel & textiles, automotive & ripment, consumer goods & home furnishings, energy & mining, environmental, food processing & packaging, health technologies, industrial equipment & supplies, information & communication services, marine industries, paper, printing and graphic arts, security & safety and used & reconditioned equipment.

Space is limited to the first 30 companies that respond. The briefing will be held on Tuesday, February 10<sup>th</sup> at the International Center of Austin, 210 Barton Springs Rd., 4th floor, (co-located with the Greater Austin Chamber of Commerce) from 5-6 pm. If you would like to attend, please provide the following information back to me via email:

Name/Title  
Company  
Address
